## INSTALLATION GUIDE

### I. Software Installation

The 3D Transformer Simulator is shipped as an electronic download deployed via a ZIP file from our ftp site. Follow the instructions below to install the necessary programs and launch the simulation.

- a. Download the ZIP file to a convenient location on your PC. We recommend your desktop. Once the installation is complete, the downloaded ZIP file will no longer be required.
- b. Unzip the ZIP file. After decompression, two files will be available:
  - i. Transformer\_Simulator\_**X.X.X**\_Company\_Name.3dve
  - ii. 3DVoyager **X.X.XXX** Setup.msi
- c. Double-click the 3DVoyager MSI file to install the Software. 3DVoyager will give your system the capability to experience 3D simulators developed by 3DInternet (3DVE files).
- d. Follow the prompts to complete the installation of 3DVoyager.

### III. Transferring Licenses

Once a Simulator is registered, it can be transferred from PC to PC easily. Follow the steps below:

- Locate the PC that you want to transfer the license from.
- Double-click the **3DVoyager 2.0** icon from the desktop. If it is not there then try **Program Files -> 3DInternet -> 3DVoyager 2.0**.
- After 3DVoyager has loaded, select the "License Manager" from the "View" menu item.

- A screen will appear which will detail all of the registered Simulators on your machine. Click the "Transfer License" button under the license you wish to transfer.

- A dialog box will appear to confirm the transfer. Click the "Yes" button. This will free up a license.
- Locate the PC you want to install the Simulator license to. Follow the installation and registration steps in sections I and II of this document.
